

Career Services Assignment Week 2 – GitHub Profile Setup

Instructions: Follow the steps below to set up your GitHub account profile. After watching the video, *Source Control with Git Overview*, you should have already set up a GitHub account for this program. If you have not setup your GitHub account, review the above video in Week 1's curriculum and set your account up before proceeding with this assignment.

1. GitHub should not be thought of as a resume or networking tool as much as it should be a place to showcase your work and code. To that end, having a GitHub profile that is personalized shows potential employers or clients that you care about your work.
2. Now that you are set up with GitHub, let's get your profile page ready to go!
3. First, upload a high-quality headshot to your profile page.
4. Next, update your profile to discuss what you do and what you are learning. You have to think about this one, because GitHub doesn't give you too many characters to accomplish this task.
5. Follow at least three (3) of your classmates, teachers, or any repository of interest to you.
6. Go to one of your repositories and update the **About** section to discuss what the purpose of the assignment is and tag the languages used like below:

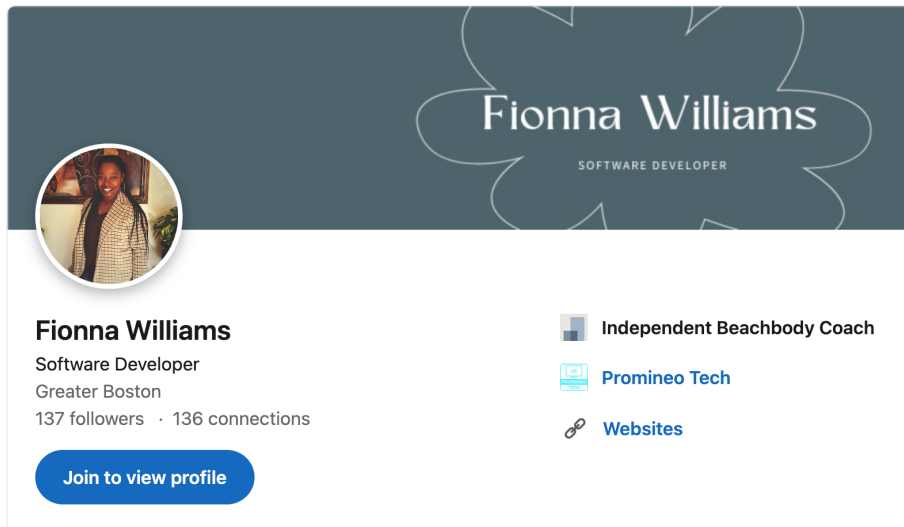

7. Finally, add a link to your GitHub profile on your LinkedIn page.

NOTE: If you are choosing not to update a LinkedIn page because of your specific employment situation, that is acceptable. If this is the case, please put a note below the *Attach Screenshots of Your Finished LinkedIn Profile* section below.

About

I am someone that does not get tied down by problems. I like to focus on the solutions and ways to improve and move forward.

I am a great leader, I love to learn new things and I love to teach what I learn to others and develop new leaders. Whenever I am educating someone I want to make sure that they understand how to pass on the knowledge to the person they will have to teach in the future.

Throughout my work experience, I've been able to work with many different backgrounds of people from young to old. In each position that I've held, I've always looked at myself as a mentor or a mentee to those that crossed my path. There is something that can be taken away from every relationship in life.

For the past 7 years, I have worked for Instacart. I started out as a driver and was quickly promoted up the chain. In my last three years, I was a Site Manager overseeing the in-store operations at 15 locations. As part of that role, I was responsible for recruiting & hiring new employees for both the shopper role & the shift lead role, conducting remote training, developing leaders within the team, collaborating with retail partners to solve customer problems, and maintaining a good relationship between Instacart employees & the retail partner employees. Due to the shift with many significant companies, including Instacart, going in a tech direction I decided to make a career change & get certified as a full-stack developer.

In my spare time, I am a health & wellness coach, helping other first-time moms to take control of their new responsibilities through a healthy routine that is centered around self-love, fitness & nutrition.

Attach a Screenshot of Your Updated GitHub Account

The screenshot shows a GitHub profile for Fionna Williams (Fswilliams814). The profile includes a circular profile picture of a smiling woman with long braids. The bio states: "Working at Instacart inspired me to dive into software development. Currently studying front end at Promineo Tech. Excited to see where it takes me!". The profile has 0 followers and 5 following. Location is Boston, and the time zone is UTC -12:00. A link to her LinkedIn profile is provided. The "Popular repositories" section lists four repositories: "testrepository" (Public), "Primineo-week1" (Public archive, HTML), "Thirdtimeacharm" (Public), and "promineo-test-video" (Public). The "Promineo_Tech" repository is pinned with a description: "Follow my Promineo Tech journey as I work to get certified as a software developer currently working on front end." and a "Rich Text Format" option. The "13 contributions in the last year" section shows a calendar grid with green squares indicating contributions. The year 2022 is selected in the "Contribution settings" dropdown. The bottom of the page shows "Activity overview" and "Code review" tabs.
